Student Presentations

Monday, March 14: Final Project Critique

- 5 minute presentation each student/group
- Please practice at home (what to say, how to say, timing)
- Be actively present for everyone's presentation
- Absolutely no late project accepted

Final Project Presentation

// Presentation

Create a presentation (Keynote, Powerpoint, PDF, etc) that showcases your entire process, including all steps mentioned above. Title your presentation lastName_firstName_presentation.

Be prepared to discuss your thinking and making, including your initial inquiry, visual inspiration / exploration, challenges and success. Additionally, you **MUST** explain the logic of your code during your presentation. Your presentation should be 5 minutes. It will be followed by a quick group critique.

// Digital submit

Create a folder titled "lastName firstName", and drop it off at:

design_scratchy > _DES Class Files > DES 37 Wntr 2016 Young >

Submit Homework > FinalProject.

finalProject_1.pde

finalProject_2.pde

finalProject_3.pde

horizontal layout PDF (use the same template provided in Ex 3)

presentation PDF (please no native files)

// Analog submit

White paper sketchbook sketches

Graph paper sketches, including pseudo code.

1-2 page research paper.
